

action a_t

Agent
 π_θ

Environment

observation o_{t+1} , reward r_{t+1}

```
graph LR; Agent[Agent  $\pi_\theta$ ] -- "action  $a_t$ " --> Environment[Environment]; Environment -- "observation  $o_{t+1}$ , reward  $r_{t+1}$ " --> Agent;
```

The diagram illustrates the interaction between an Agent and an Environment. The Agent, represented by a light blue rounded rectangle on the left and labeled "Agent π_θ ", sends an "action a_t " to the Environment, represented by a light green rounded rectangle on the right. The Environment then sends back an "observation o_{t+1} , reward r_{t+1} " to the Agent. The actions and observations are represented by curved arrows connecting the two boxes.
